EDUCATION

University of Minnesota, Twin Cities

Ph.D. Student in Biostatistics

Minneapolis, US

Sep 2024 – Jun 2029 (Expected)

Dissertation Advisors: [Sandra Safo](#) and [Jue Hou](#) (Division of Biostatistics and Health Data Science)

Also Supervised by: [Ju Sun](#) (Computer Science & Engineering)

Renmin University of China

B.S. in Statistics

Beijing, China

Sep 2020 – Jun 2024

RESEARCH INTERESTS

Statistically principled methods for **transferable and trustworthy machine learning and deep learning**, with applications spanning biomedical, imaging, and engineering domains.

- **Transfer Learning** – estimators that keep their statistical guarantees when distributions shift or evidence must be pooled across sites, spanning distributional transfer, federated causal estimation, and reinforcement learning.
- **Uncertainty Quantification** – deciding when a model should abstain rather than guess, via selective prediction with explicit risk–coverage trade-offs.
- **Biomedical & Health Data Science** – computational and AI methods for electronic health records, biomedical knowledge graphs, medical imaging, and multi-platform biomarker data.

TEACHING & MENTORING

Research Mentor – Shuheng Kong & Conglin Ruan, master's students May 2025 – Sep 2025
Guided development of Python and R versions of the NILE package for natural language processing.

Teaching Assistant, Data Science Practice Renmin University of China
Beijing, China Jan 2024 – Jun 2024

Teaching Assistant, Probability Theory Renmin University of China
Beijing, China Aug 2023 – Dec 2023

Research Mentor – Brittany Wang, high school student Jun 2023 – Sep 2023
Supervised research using real-world data to support an acute ischemic stroke (AIS) study.
